

ENTRY DOORS
STYLE WITHOUT COMPROMISE

Innotech offers a variety of entry door designs to create memorable first impressions. Custom entry doors combine our signature Hybrid Framing System and multipoint locking hardware to ensure your door is highly energy efficient, secure and durable.

Hybrid Framing System

All Innotech entry doors feature our durable Hybrid Framing System. Thick walled European uPVC profiles are reinforced with steel and fusion welded at the corners for a structurally superior frame and sash that is air and water resistant.

Defender Hardware System

Each door sash is surrounded by a band of fully-adjustable steel hardware that securely bolts to the frame at multiple points. Heavy-duty hinges, steel reinforced frame and sash, and multiple locks result in a highly secure door.

Modern Doors

Our modern collection is made with insulated aluminum panels, stainless steel metal trim and triple glazed insulated glass units. Choose from five distinct designs in your choice of white, painted black, black foil, golden oak wood grain foil, walnut wood grain foil, or custom painted with clear or sandblasted glass.

Traditional Doors

Our traditional collection offers our signature performance and the look of real wood. These doors are made with insulated aluminum panels and finished with a durable wood grain foil. The panel can have a solid or grooved finish. Customize your doors with side or top windows.

Glass Doors

Glass doors are made with double or triple glazed insulated glass units in your choice of clear or sandblasted glass. Add mullions or simulated divided lights to create your custom door.

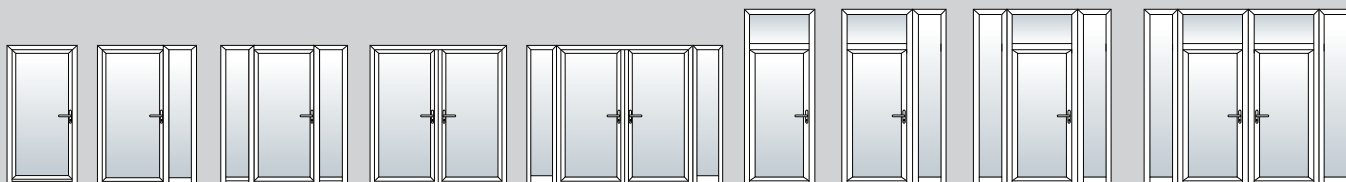

Design Options

Entry doors are available with insulated glass units or insulated aluminum panels with your choice of panel and frame colour, glass and handles. Add matching fixed or operable windows above or on the sides to create the ideal door for your lifestyle and home.

Select your...

Configuration

Entry doors are available as single or double doors with or without top or side windows.

Handles

Every door is available with a variety of handle styles and colours. Ask your Product Representative for more information.
